Introducing the

RUSS MULTI PURPOSE SHIRE VEHICLE

RUSS EQUIPMENT

SUPPLIERS OF HIGH QUALITY TRANSPORT HANDLING EQUIPMENT

192 Beatty Road Archerfield QLD 4108

The base unit for the RUSS MULTI PURPOSE SHIRE VEHICLE. The truck is fitted with an economic HYVA LIFT hook loader system to provide the high speed, safe mounting and unmounting of the additional attachments.

RUSS EQUIPMENT has a wide range of hook loader units from the small 3 tonne unit up to the massive 30 tonne unit. We can tailor a complete system to suit your exact needs, or, we can provide you with the base unit and you can fit the other units as finances and needs become available.

The uses for the RUSS MULTI PURPOSE SHIRE VEHICLE is limited only by your imagination!!!

BULLOO SHIRE COUNCIL (SW QLD)
10.4 Tonne Automatic Isuzu
8 cubic metre RUSSEquipment kerbside collection
unit.

The compact nature of this system removes the need for dual control system for operation of the RUSSEquipment kerbside collection system.

When fitted with the RUSSEquipment Minipactor system the hookloader is automatically disabled to provide protection for the compactor systems when mounted.

The water tank, sewerage tank and diesel tank have been converted for use with the demountable system by the customer.

Septic pump out Unit

Warraber Island (Torres Straits)

13 Tonne 4x4 Isuzu

2 cubic metre concrete agitator.

Council can now order additional attachments when finances permit. The attachment is manufactured in Brisbane and shipped to the Island. Upon arrival the truck unit can pick it up and in most cases immediately begin using the attachment/s.

NO NEED TO SEND THE TRUCK BACK FOR MOUNTING ETC.
